EXPERIENCE

SUNGARD CONSULTING SERVICES

New York, NY

Senior Consultant

2007-2008

- Led implementation of multiple Tier 1 mutual fund companies on the SunGard Transaction Network SEC Rule 22C-2 Compliance System.
- Developed and executed implementation plan to bring clients onboard a new system for requesting and analyzing mutual fund trade data.

BEARINGPOINT

New York, NY

Consultant

2004-2007

- Successfully repaired the failing migration of a large commercial loan system ledger and MIS to a new finance platform (SAP) at JP Morgan Chase. Developed a new project plan and critical path; led a team of 20 people from 4 departments to develop and test solutions to meet target deadlines.
- Managed a 6-person team during the system testing phase of a large hardware migration at JP Morgan Chase. Developed and managed project dependencies, project plans, test scripts and use cases, business requirements, and internal team functions such as: forecasting, time and expense management, and invoicing.
- Created tools to track and report development progress and observations across various lines of business, forecasted resource time & expense utilization, and developed statements of work for additional work as a project coordinator of team projects at Liberty Mutual and Allstate.
- Developed a market entry strategy for a prepaid insurance card product at MasterCard.
- Developed a data analysis tool to allow for visibility into and testing of potential approaches for Sarbanes-Oxley Act Section 404 (SOX 404) compliance at JP Morgan Chase.
- Conducted a company-wide current-state systems analysis at New England Financial by developing and populating an indexing database and corresponding application maps through interviews with client Subject Matter Experts and management.
- Developed short-term and long-term systems consolidation plans and a new IT architecture road map for two separate divisions at MetLife.

PFIZER

Exton, PA & Paris, France

Information Technology Intern

2003-2004

- Migrated the sales forces of the Animal Health departments in both the United States and France to new, more versatile Customer Relations Management (CRM) systems.

SKILLS

- Fluent in French

INTERESTS

- Volunteer Work (Big Brother, Big Sister; BU Community Service Center), Guitar, Piano
